

***Here's how
to dispose
of me
safely!***

Did you know that refrigerators, freezers, air conditioners, heat pumps and dehumidifiers cannot be accepted at Snohomish County facilities?

Ask if your appliance retailer will accept and/or pick up your old appliance, or consult the list on the back for additional options.

To discard appliances, contact one of the dealers listed. Always call ahead! Some companies listed may have changed acceptance policies. Be sure to confirm the hours, what appliances are accepted, what you will be charged and any special requirements. Never leave appliances after operating hours.

Appliances can be brought to scrap metal dealers with proof that freon and compressor motors have been removed by a certified technician as required by Federal and State regulations to reduce air pollution from CFCs (chlorofluorocarbons).

Other appliances and scrap metal can still be recycled at county facilities.
